RIT BAJA SAE

SPONSORSHIP INFORMATION 2015-2016

WHAT IS RIT BAJA?

RIT Baja gives students the opportunity to experience the production cycle first hand while working in a diverse environment. Our club is a non-profit collegiate organization sponsored by the Society of Automotive Engineers (SAE). RIT Baja gives students the opportunity to design, build, and race an all-terrain vehicle.

In addition, students consider the manufacturing and marketing processes that involve the actual production of an all-terrain vehicle. Each year a new car is built from the ground up and is entered into national competitions featuring over two hundred participating schools. Most importantly, the support of sponsors allows RIT Baja members to enhance their skills for future careers.
